This model finished training on Apr 9, 2025, 8:13:56 PM.

Status	Finished
Model ID	673812611338338304
Version description	—
Created	Apr 9, 2025, 6:25:57 PM
Budget (original)	1 node hours
Training time	1 hr 47 min
Region	us-central1
Encryption type	Google-managed
Dataset	Vaccination
Dataset ID	3773517859213279232
Target column	Infant_Mortality_Rate
Series identifier column	Country
Timestamp column	Year
Data granularity	Yearly
Context Window	8 years
Forecast horizon ends	After 10 years
Data split	Chronologically assigned
Model hyperparameters	Model Trials

Recommended for you

Choosing a training method

Help document

Understand key differences between AutoML and custom training.

Training AutoML models

Help document

Train AutoML models by using the Google Cloud console or the Vertex AI API.

Creating a model using custom training

Help document

Develop a custom training application and create a model using custom training.

Getting support

Help document

Learn where to get support for Vertex AI.
